

Internet2 is over 200 U.S. universities working in partnership with industry and government to develop tomorrow's Internet. VCU is connected to Internet2, facilitating a number of exciting projects using Internet2 technology:

- ◆ *Distance Education*
- ◆ *Minimally Invasive Surgery*
- ◆ *Experimental Works of 3-D Computer Art*
- ◆ *Genome Analysis*
- ◆ *Crystallography and Computer-Aided Drug Discovery*
- ◆ *Medical Informatics and Technology Applications Consortium (MITAC)*
- ◆ *Mid-Atlantic Twin Registry (MATR)*
- ◆ *Using Realtime Audio and Video for Microelectronic Education*
- ◆ *VCU Remote Sensing Program*

This is a FREE event, thanks to our sponsors

Dr. Cynthia Heldberg, Associate Dean of Admissions for the School of Medicine, uses Internet2 technology to hold a preadmission conference with a Virginia Tech student.

**Learn More At
VCU's Internet2 Day:**

**Friday,
November 30, 2001**
